

**East Sussex CTC
group visit to Peacehaven
Wastewater Treatment Works**

Thursday 16th April 2026

At 2.00 pm

Come along for a free tour and go behind the scenes at Peacehaven treatment works to learn what happens to your wastewater.

What happens during the tour?

With a guide, headset and wearing safety gear, you'll follow the journey of wastewater as it travels through the treatment process, learning how they manage everything that goes down the drain and how storm overflows work.

In the education space, discover the history of sewers, the water companies role in the water cycle, and the steps they're taking to improve the health of rivers and seas.

**If interested, please contact the Treasurer, John Holmes,
for further details - Email: j.p.holmes@hotmail.co.uk**

Limited places available.
